Blurt it

Step 1

Name _____ **Date** _____

1. Cover your notes and put your phone face down.
2. Set a timer for 5 minutes.
3. Write down everything you remember about the changing economic world: facts, key words, processes, and your case studies and examples. Diagrams and sketch maps count too.

Stuck? Start with one of these: development gap · HDI · de-industrialisation

When the timer ends, turn over and check what you remembered.

Steps 2, 3 and 4

Check it

Tick each idea you wrote down, even in your own words.

- [ ] Development is measured in different ways: GNI per head, birth and death rates, infant mortality, life expectancy, people per doctor, literacy, safe water and HDI
- [ ] One measure on its own can be misleading; HDI combines several
- [ ] The Demographic Transition Model links birth and death rates to development
- [ ] Uneven development has physical, economic and historical causes, and leads to gaps in wealth and health and to migration
- [ ] Ways to close the gap: investment, industry and tourism, aid, intermediate technology, fairtrade, debt relief and microfinance
- [ ] LIC or NEE case study: industry, TNCs, trade, aid, the environment and quality of life
- [ ] The UK has de-industrialised and moved to a post-industrial economy: services, finance, research, and science and business parks
- [ ] Some UK rural areas are growing and others are declining
- [ ] UK transport upgrades, the north-south divide, and links through trade, the EU and the Commonwealth
- [ ] Use named examples of tourism closing the gap and a sustainable UK industrial development

Key words to use: development · GNI per head · birth rate · death rate · infant mortality rate · life expectancy · people per doctor · literacy rate · HDI · Demographic Transition Model

I remembered _____ out of 10.

Fix it

Pick 3 ideas you missed. Look them up, then write each one correctly.

1

2

3

Space it

Blurt again on a fresh sheet. Gaps help you remember for longer.
